

Testing On Admin Dashboard Done By Tejas Gophane

1)While Doing Registering the UI is not User friendly ,make it good like increase the width of the form.

2)While Login It takes much time to Load the and navigate to the Dashboard see the Issue.

3) The Hostel Images are Not showing ,I think image is unable to fetch from backend ,see routes Issue.

4)The Buttons listed for Aprrove Hostels ,or reject Hostel,Or View are compressed make the good designing of it.

5)Less Responsive ,like its not good on mobile friendly Users :

The screenshot shows the HostelHub Admin Dashboard in a web browser. The dashboard has a dark blue header with the 'HOSTELHUB' logo and navigation links: 'VIEW ALL HOSTELS', 'Profile', 'Logout', and 'VIEW STUDENTS'. The main content area is titled 'Hostel Approval Management' and features filter buttons: 'All', 'Pending', 'Approved', and 'Rejectec'. Below the filters is a table with columns: '#', 'Name', 'Address', 'Gender', and 'Re'. The first row shows 'Pacaurdan'. The browser's developer console is open on the right, displaying a list of network requests. The 'Issues' tab is active, showing a warning: 'A form field element should have an id or name attribute'. The console also shows summary statistics: '9 / 18 requests', '1.0 kB / 1.5 kB transferred', '6.1 kB / 1,013 kB resources', and 'Finish: 54.83 s'.

Name	Status	Type	Initiator	Size	Time
admin-login	204	preflight	Preflight	0.0 kB	256 ms
admin-login	200	xhr	AdminLogin.js:17	0.3 kB	1.30 s
4	200	xhr	AdminHeader.js:46	0.2 kB	586 ms
all-hostels	200	xhr	AdminDashboard.js:1	0.1 kB	433 ms
all-hostels	200	xhr	view_hostel_admin	0.1 kB	429 ms
4	200	xhr	AdminHeader.js:46	0.1 kB	406 ms
all-hostels	200	xhr	ApproveHostel.js:1	0.1 kB	436 ms
4	200	xhr	AdminHeader.js:46	0.1 kB	415 ms
students	200	xhr	ViewStudents.js:17	0.1 kB	621 ms

6)The Filters are Not Working Correctly ,resolve the Bug
